

 **[GHEOG-18] The voucher is not added in the order**
 Created: 13/Feb/24 2:10 PM - Updated: 14/Mar/24 2:21 PM - Resolved: 14/Mar/24 2:21 PM

Status:	Done
Project:	TMTA21_GheogheSimonaStefania
Component/s:	None
Affects Version/s:	Version 1.0
Fix Version/s:	Version 1.0

Type:	Bug	Priority:	Medium
Reporter:	IT Factory	Assignee:	Unassigned
Resolution:	Done	Votes:	0
Labels:	None		
Original Estimate:	Not Specified		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		

Description

Precondition: Voucher is already received from a previous order

Reproduction steps:

1. Add a new order using the test steps described in "Check if an order can be added" test
2. After adding the needed products and the information regarding the shipping and payment click on More button
3. Write in the Voucher Field the value of the voucher
4. Press Apply Button

Expected results: The voucher is added in the order

Actual results: The voucher is not added in the order

Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		

Description**Reproduction Steps:**

1. Open the Catalog drop drill and click on Categories
2. Click on Add New Button
3. In the General interface: fill in the lines: Category Name, Description, Meta Tag Title, Meta Description and Meta Tag Keywords
4. In the Data interface: select the parent, write filters, check the default button for stores, upload an image for the new category, fill in the lines columns and sort order, and set the status as enable
5. In the SEO interface: fill in a keyword
6. In the Design interface: select Layout Override from the drop list
7. Save

Expected results: A new category is added

Actual results: The new category is not created - Warning: " You do not have permission to add categories!" even if we have admin credentials.

Resolution:	Done	Votes:	0
Labels:	None		
Original Estimate:	Not Specified		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		

Description

Precondition: The order needs to be created

Reproductions steps:

1. Open the Sales drop drill and click on Return button
2. Click on Add New Button
3. For Order information: write the Order Id that needs to be returned, select the Order Date from Calendar, select the customer, fill in the following lines: first name, last name, e-mail and telephone.
4. For Product Information & Reason of Return: choose the product and the model from the list, fill in the product quantity that needs to be returned, choose the return reason, select the status opened or unopened, write a comment regarding the order or the reason of returning the product, select Return Action from the list and Return Status
5. Click Save

Expected Results: A new return product is created successfully.

Actual Results: The steps can not be followed because the customer can not be found in the list, even if the order is created for that customer.

Description

Preconditions: The return product that needs to be modified have to be created and listed in Product Returns List.

Reproductions steps:

1. Open the Sales Tab and click on Returns
2. Click on edit button for the product return that needs to be edited
3. Go to the Product Information & Reason for Return
4. Change the number in the Quantity line (The number was changed from 3 to 1)
5. Click Save

Expected Results: The quantity in the product return is changed successfully.

Actual Results: Even if the message "The product return was modified successfully" is showing, if we go back to the Product Returns list and view again the product return id, the quantity is not changed.

Resolution:	Done	Votes:	0
Labels:	None		
Original Estimate:	Not Specified		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		

Description

Precondition: A product return is added in the date that we need to filter.

Reproduction Steps:

1. On Sales Category, click on Returns
2. Choose the date from the calendar for Date Added and Date Modified (23.02.2024)
3. Click on Filter

Expected Results: In the Product Return List we have only the returns that were added and modified on the chased date.

Actual Results: Even if we have one return id (288) created and modified on 23.02.2024, if we filter on that date, the return is not showing, only the text saying "No results found!".

Description

Precondition: The customer needs to exist in the Customers list in order to be modified.

Reproduction steps:

1. Use the steps included in the "Verify if an existing customer can be modified" test in order to open the Customers List and click on Edit
2. Go to Reward Points for that customer
3. Fill in the Description and the Points (Description: Gift Card, Points: 100)
4. Click on Add Reward Points
5. Click Save

Expected Results: After saving the changes for that customer, the reward points are shown in the Reward Points list.

Actual Results: The changes have been successfully saved but the points are missing for the list.

Description

Precondition: The product needs to be in the Products List.

Reproduction Steps:

1. Open the Categories drop drill and click on Products
2. Select the product that needs to be deleted by clicking on the check box in the left side of the product (Test Data: Product Name - Apple Cinema 30")
3. Click on Delete
4. In the window that appears which is asking us "Are you sure?" click on OK

Expected Results: The product has been successfully deleted and removed from the Products List.

Actual Results: Even if the Message that the product has been successfully deleted from the list appears, the tested product is still in the list.

Description

Precondition: We need to have products that have that price in the Products List.

Reproduction Steps:

1. In Navigation interface, open the Catalog drop drill and click on Products
2. In the right side of the page, fill in the price that needs to be tested (Test Data: price - 100)
3. Click on Filter

Expected Results: In the Products List it should appear only the products that have 100\$ price.

Actual Results: There are products showed in the Products List that have not the tested price (100\$).

Description

Precondition: In the Orders List, there should be orders that have the status canceled.

Reproduction Steps:

1. In Navigation, open the Sales drop drill and click on Orders
2. For Filters, select the Order status (Order status: Canceled)
3. Click on Filter

Expected Results: In the Orders List, it needs to appear only the orders that have the status canceled.

Actual Results: The filters are considering the status order but the Date Added and Date Modified can not be ignored, so we can not filter based only on the order status.

Description

Precondition: That customer that is tested needs to have orders placed.

Reproduction Steps:

1. From Navigation, click on Customers in order to open the drop drill and click on Customers
2. Search for that specific customer that needs to be verified (Customer Name: asd asd)
3. Click on the pencil for that customer in order to edit the information for that one
4. Click on Orders

Expected Results: The orders for that specific customer are shown

Actual Results: Even if the customer tested (Customer Name: asd asd) exists in customers list and has at least one order placed (as seen in the attachment), if we check the orders in customers, there are no orders found (as shown in the attachment).

Description

Precondition: That category needs to be added or needs to exist in Categories List first.

Reproduction Steps:

1. Open the Categories from Navigation by clicking Catalog and Categories
2. Search for the category that needs to be modified.
3. Click Edit
4. Go to General and write the description
5. Click Save

Expected Results: The category named Cameras was modified successfully and the description can be viewed if we click on edit the category again.

Actual Results: Message that the category has been successfully modified is showing but if we go back and view/edit again the category Camera, the description written before is not there.

image-2024-03-14-13-16-18-805.png (44 kB)

A screenshot of a web-based application interface for editing a category. At the top left, the word "Categories" is displayed next to a "Home" link. On the far right, there are two blue square icons with white symbols: a square with a circle and a square with a curved arrow. Below this header, the main content area has a title "Edit Category" with a pencil icon. A navigation bar at the top includes tabs for "General" (which is highlighted in a light gray box), "Data", "SEO", and "Design". Under the "General" tab, there is a section for "Language" with a dropdown menu showing "English" and a small flag icon. Below this, the "Category Name" field contains the value "Cameras", preceded by a red asterisk indicating it is required. Further down, the "Description" field is shown as a rich text editor with various toolbar icons for font selection, size, bold, italic, underline, strikethrough, superscript, subscript, and other document properties.
